Love & Logic Parenting Classes

Every Second Saturday, Every Month!

The Love & Logic Parenting Training provides parents with easy-to-use, practical techniques that help them create respectful and healthy relationships with their children. The unique Love and Logic approach to raising children puts the adults in control, teaches children to be responsible, and prepares them for the real world.

Parent Comments

“Love and Logic has taken so much stress out of my life. I can enjoy my kids so much more because I’m not a mother hen – just a loving mom raising responsible kids. Thanks!”

Maria, mother of 15 year old

“Well, although kids don’t come with an owner’s manual, I believe that Love & Logic is as close as you can get. It is the support system that parents have been searching for all this time.”

Fred, father of 3 year old
